***RECOMMENDATION LETTER***

I have known Christian Tirado-Morales since 2017 as a computer science freshman at the University of Puerto Rico – Arecibo (UPRA).

Christian did an excellent job in my course CCOM3001 – Computer Science Programming I. He was in the top 3% of the class and demonstrated good math skills and logical reasoning. In this course, he was very dedicated to the task; doing what is possible to get it done. He is dependable, trustworthy, serious, honest, discipline and persevering.

I am convinced that he will succeed in any goal he decides to accomplish. I recommend him very highly with any doubts whatsoever.

Sincerely,

Prof. Norma J. Torres-Herrero  
Full Professor  
Computer Science Department - <http://upra.edu/computadoras>
