Human Resources Department

Krystal Quiñones:

As professor of the Computer Science Department of the University of Puerto Rico at Arecibo, I have had the pleasure of knowing Christian Tirado Morales as student of our bachelor program for three years. He has been an excellent student and an asset to our program. I would like to take this opportunity to recommend Christian for your Internship Program.

Christian is a dedicated student with excellent teamwork skills. In class, he has proven to be a self-starter student and very good studying by himself. He always has been committed to his studies. When he sets a goal, he does everything possible to achieve it. Beyond that, he is member of the Computer Science Student Association (CSSA), being board member once. I feel confident that he will continue to succeed in this internship experience.

As my student, he demonstrated that he can identify and analyze problems, recognizing the relevant information, and providing solutions to them. During his oral presentations, always showed confidence in himself, mastery of the subject and ability to convince the audience that consisted of his classmates. Also, he was open to criticism, to ideas different from his own.

He is a natural leader with clear goals. It is for these reasons that I offer high recommendations for Christian Tirado without reservation. If you have any questions regarding this recommendation, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Aixia R. Toledo".
